1. Describe a piece of technology that you feel difficult to use

You should say

When you got it

What you got it for

How often you use it

And explain how you feel about it

Bài mẫu

I would like to talk about a piece of technology that I find difficult to use, which is a professional-grade camera. I acquired this camera approximately two years ago when I embarked on a photography course to enhance my skills as an amateur photographer. My intention was to capture high-quality images and explore the art of photography more deeply.

Regrettably, I don't use the camera as frequently as I had initially anticipated. The reason behind this is the complexity and technicality associated with its operation. The camera offers a multitude of settings, such as aperture, shutter speed, and ISO, which can be overwhelming for someone with limited experience. Understanding how each setting affects the final image and achieving the desired outcome requires a significant amount of practice and experimentation.

Due to the steep learning curve, I find myself reverting to using my smartphone camera for everyday photography needs. It offers simplicity and convenience with its automatic settings, whereas operating the professional camera demands

time and expertise. Consequently, I tend to reserve the use of the professional camera for special occasions or when I have dedicated photography sessions.

On a personal level, I feel a sense of frustration and disappointment towards the camera. I had hoped that owning a professional-grade camera would automatically result in stunning photographs, but I underestimated the technical knowledge and skills required to maximize its potential. However, I also recognize that the challenge I face is an opportunity for growth and improvement in my photography journey.

2. Describe a place where you thought things were too expensive

You should say:

What the place is like

Why you went there

Why things are expensive there

And explain how you feel about the place

Bài mẫu

One place where I found things to be excessively expensive is Fifth Avenue in New York City. This renowned high-end shopping district is known for its luxury boutiques, upscale department stores, and extravagant jewelry shops. I visited Fifth Avenue during a vacation, attracted by its reputation as a premier shopping destination.

The exorbitant prices in this area can be attributed to its prime location in Manhattan, one of the most expensive real estate markets. High rents and operating costs are passed on to consumers. Additionally, the brands and stores on Fifth Avenue cater to affluent clientele, offering exclusive designer labels and limited-edition collections. The perception of exclusivity and high demand for luxury goods also contribute to inflated prices.

While I admired the grandeur and sophistication of Fifth Avenue, I felt a sense of detachment due to the stark contrast between the opulence and my own financial limitations. The steep prices made the luxury items seem out of reach and emphasized the disparities in society. The emphasis on materialism within this district left me with mixed feelings, appreciating the spectacle but feeling disconnected from the place.

I first became aware of Malala through her remarkable story that made headlines worldwide. At a young age, she fearlessly spoke out against the Taliban's ban on girls' education in her hometown of Swat Valley. Tragically, her activism led to her being targeted and shot in the head by a Taliban gunman. However, Malala's resilience and determination to fight for education and equality only grew stronger in the face of adversity.

Malala's unwavering commitment to her cause and her courage in standing up for what she believes in are truly inspirational. Despite facing life-threatening challenges, she never wavered from her mission to ensure that all children, regardless of gender, have access to education. Her advocacy work has not only brought global attention to the importance of education but has also resulted in tangible change, including the establishment of the Malala Fund - a nonprofit organization that empowers girls through education.

What sets Malala apart as a role model is not only her activism but also her humility and grace. Despite her fame and accolades, she remains down-to-earth and uses her platform to amplify the voices of others. We chose a nearby park known for its picturesque landscapes and serene atmosphere. As we arrived, the lush greenery and vibrant flowers instantly filled us with a sense of tranquility and joy. We started our day by taking a leisurely stroll along the meandering pathways, relishing the fresh air and the melodic chirping of birds.

To make the most of our visit, we packed a picnic lunch consisting of homemade sandwiches, fruits, and snacks. We found a cozy spot under the shade of a tall tree and laid out a blanket to enjoy our meal. This laptop has served me well, accompanying me through countless hours of work, entertainment, and personal endeavors. However, its age and declining performance have become increasingly noticeable, prompting me to consider investing in a new one.

The laptop is a 15-inch model, and it currently sits on my desk in my home office. Over the years, it has become an essential tool for my daily activities, ranging from professional tasks such as writing reports, creating presentations, and conducting research, to personal pursuits like streaming movies, managing my finances, and staying connected with friends and family.

I acquired this laptop during my college years as a necessity for my studies. At the time, I diligently saved up money from part-time jobs and finally purchased it from a reputable electronics store. It felt like a significant investment, and I was excited to have a reliable device that would support me throughout my academic journey.

However, as time has passed, the laptop has started showing signs of wear and tear. The battery life has significantly decreased, requiring frequent charging even for basic tasks. The processing speed has slowed down, causing frustrating lags and delays. Additionally, newer software updates and applications demand higher system requirements, rendering my current laptop inadequate for seamless functioning.

7. Describe a person who often buy at the street market at cheaper price

You should say:

Who this person is

What this person likes to buy

And explain why this person likes cheap goods

Bài mẫu

The person I would like to describe is my friend, Sarah. Sarah is a thrifty individual who frequently shops at street markets to find affordable deals. She has a keen eye for spotting good bargains and takes pride in her ability to find quality items at lower prices.

Sarah enjoys buying a wide range of products at street markets. From clothing and accessories to fresh produce and household items, she seeks out the best deals on various goods. She believes that by shopping at street markets, she can save a significant amount of money compared to shopping at traditional retail stores.

When it comes to the location of her shopping expeditions, Sarah prefers visiting bustling street markets in the heart of the city. These markets are known for

their vibrant atmosphere, diverse offerings, and competitive prices. She enjoys exploring the different stalls, interacting with the vendors, and negotiating prices to further maximize her savings.

The primary reason why Sarah prefers cheap goods is her commitment to frugality and financial responsibility. She believes that by purchasing items at lower prices, she can stretch her budget and allocate her resources more effectively. This mindset allows her to save money for other important expenses, such as travel, education, or unforeseen emergencies.

8. Describe a vehicle you would like to buy

You should say:

What kind of vehicle

Why you would like to have it

How you would get it

Bài mẫu

The vehicle I have set my sights on is a compact electric car. As environmental consciousness grows and sustainability becomes increasingly important, I believe that owning an electric vehicle (EV) aligns with my values and lifestyle choices.

There are several reasons why I am eager to own an electric car. First and foremost, it is an environmentally friendly choice. Electric cars produce zero tailpipe emissions, reducing air pollution and contributing to a cleaner and healthier environment. By opting for an electric vehicle, I can actively contribute to mitigating climate change and reducing my carbon footprint.

Furthermore, the cost savings associated with electric cars are highly appealing. Electric vehicles have lower operating costs compared to traditional

gasoline-powered cars. The cost of electricity required to charge an EV is typically lower than the cost of gasoline, resulting in significant savings over time. Additionally, electric cars require less maintenance due to their simplified drivetrain and fewer moving parts, reducing the need for frequent oil changes or engine repairs.

In terms of acquiring an electric car, I would explore different options. One possibility is to purchase a brand-new electric vehicle from a reputable dealer. This would ensure that I have access to the latest technology, features, and warranty coverage. However, another option is to consider the used electric car market. As the popularity of EVs increases, more pre-owned electric vehicles become available at more affordable prices. This could be a viable alternative for obtaining a well-maintained electric car at a reduced cost.

Another avenue to explore is leasing an electric vehicle. Leasing provides the opportunity to drive an electric car without the long-term commitment of ownership. It allows for flexibility, the ability to upgrade to newer models, and often includes maintenance and warranty coverage.

Bài mẫu

One unusual meal I had was during a trip to a remote village in Thailand. It was a few years ago when I embarked on a backpacking adventure through Southeast Asia. One particular evening, I stumbled upon a local gathering in the village, where I was invited to join their communal feast.

The meal took place in an open-air setting, surrounded by lush greenery and the sounds of nature. The villagers had prepared a variety of traditional dishes,

some of which were unfamiliar to me. As I sat down to eat, I realized that the meal consisted of a unique assortment of ingredients, including insects.

I had the meal with the villagers themselves, who were incredibly welcoming and proud to share their local cuisine with me. They explained that insects were a common and sustainable source of protein in their culture. Curiosity prevailed over any reservations I had, and I decided to embrace the experience.

The meal was unusual primarily because of the inclusion of insects as a prominent part of the menu. I tried fried crickets, silk worms, and bamboo worms, among others. It was a departure from my culinary comfort zone, but I saw it as an opportunity to immerse myself in the local culture and expand my culinary horizons.

While the thought of eating insects might seem unconventional to many, I quickly discovered that they were actually quite flavorful and surprisingly enjoyable. The villagers' enthusiasm and pride in their culinary traditions made the experience all the more memorable.

And explain why you did not like the advertisement

One advertisement that left a negative impression on me was a television commercial I saw recently for a fast-food chain. It aired during primetime and caught my attention due to its intrusive and misleading nature.

The advertisement was promoting a new burger from the fast-food chain. It showcased vibrant visuals of the burger, accompanied by exaggerated sound effects and flashy graphics. However, what bothered me the most was the unrealistic portrayal of the burger. The actual product received in the restaurant bore little resemblance to the mouthwatering version depicted in the commercial.

I found the advertisement deceptive and manipulative. It seemed designed to create false expectations and lure customers with an appealing visual representation that did not reflect the reality of what was being offered. This disregard for transparency and honesty in advertising left a sour taste in my mouth.

Furthermore, the commercial seemed to prioritize style over substance. It focused more on flashy visuals and gimmicks rather than highlighting the quality of the food or the values of the brand. This approach felt shallow and insincere, diminishing my trust in the company.
