Lịch sử hội thoại

Học sinh Okay, let's go.

Bingo Hi there! I'm so happy you're here to learn with me today! Are you ready for some fun English practice? 😄 Let's start with a game

about school!

Học sinh

Okay, let's get started.

Bingo

Yay! It's so great to see you again! Let's learn some new English words today. We're going to play a game about school! 🎒

First, let's learn about different schools. We can go to **kindergarten** when we are very little, then **primary school**, and later **secondary school** or **high school**. Do you know which school you go to now?

Học sinh

I'm in high school right now and next year I'm going to attend, no, to go to university.

Bingo

That's wonderful you're in high school! University is a big step. 😄

Now, let's try a fun game! We're going to pretend we're at a school meeting. I need you to help me make some classroom rules using special sentences.

For example, I might say: "It is important that students listen carefully."

Can you try? What is a rule you think is important for our classroom?

Học sinh

It's important that students need to be quiet in the classroom.

Bingo

That's a great rule! You used "It is important that students..." very well. 👍

Let's try another one. You are the teacher and some students are talking loudly during the lesson. What is your suggestion? Remember to start with "I suggest that..." or "It is essential that...".

Học sinh

It's essential that students need to be quiet in class.

Bingo

That's a super rule! You're doing great with these classroom rules. ⭐

Let's try one more for this game. Imagine you are the principal of the school. Some students are always late for class. What is your rule for them? Remember to start with "I insist that..." or "It is necessary that...".

Học sinh

suggest that students need to arrive in school at 8 a.m. unless they will get punishment

Bingo

You are doing wonderfully with the rules! ⭐ You used "suggest that students arrive..." perfectly.

Now we're ready for our next game! This one is about wishes. Sometimes we want things to be different, right? We can say "I wish..."

For example, if a lecture is too long, we can say: "I wish the lecture would be shorter."

Can you think of something you wish for at school? Maybe something about your lessons or your campus?

Học sinh

I wish my score would be bigger.

Bingo

That's a great wish! You used "I wish... would be..." perfectly. ⭐

Now, let's try another wish. Imagine you find a **module** really difficult. You can say: "I wish I could understand this module better."

Can you make a wish about a difficult lesson or a test?

Học sinh

I wish I could understand math better.

Bingo

That's a fantastic wish! Wishing to understand something better is a great way to improve. ⭐

Now, let's try one more wish, and then we can play a different game. Imagine you have to **submit** a big project, but you need more time. What would you wish for? Remember to start with "I wish..."

Học sinh

I wish I had more time to finish this big project.

Bingo

That's a perfect wish! You used "I wish I had..." so well. ⭐

We've practiced making rules and making wishes. Now let's try a quick game with some new words!

Do you know what **campus** means? It's the grounds and buildings of a university or college. 🏫

Can you tell me something you might see on a **campus**?

Học sinh

You can see some buildings for students to learn it, or a canteen, a waterfall, some like a garden with stone chairs. I think it was so familiar in the campus.

Bingo

Wow, that sounds like a beautiful and peaceful campus! I can imagine students studying in the gardens and relaxing near the waterfall. ⭐

Now that we've talked about the campus, let's think about studying. Sometimes, we have to take special classes or attend specific **modules**.

Can you tell me what a **module** is in a school or university?

Học sinh

Sorry, but I really don't understand that word.

Bingo

That's okay! We're learning together. ⭐

A **module** is like a subject or a course that is part of a bigger program at a university. For example, "English Literature" could be a module.

Can you think of a subject at school that you find interesting?

Học sinh

I found that I am very interesting in lecture.

Bingo

That's wonderful that you find lectures interesting! ⭐

We have talked about campus and modules. Now, let's talk about another school word: **lecture**. A lecture is like a long talk where a teacher or professor teaches a large group of students.

Can you tell me about an interesting topic you might hear in a lecture?

Học sinh

I don't really know about it. Can you tell me some interesting topic that you know, please?
